CATS FACTS

July 20, 1925 Baton Rouge Electric Company was authorized and permitted to operate a system of motor busses on the public streets of the City of Baton Rouge. The length was not to exceed thirty feet and buses were to be operated in accordance with the traffic regulations and rules of the City of Baton Rouge. LSU had moved from the State Capital grounds location to its campus south of the city. Prior to this time citizens were transported by electric trolley cars. This was the first time busses were introduced.

Towne Center at Cedar Lodge
